

Accept credit cards
anywhere you do business!

Mobile Payments Accepted HERE!

AppStar Mobile Terminal allows you to securely connect with your merchant account and process credit card payments anywhere, anytime!

AppStar Mobile Terminal...Plus Benefits, Minus Restrictions!

Introducing the AppStar Mobile Terminal, the newest solution for mobile payments! Now you can process transactions from almost anywhere with your mobile device. It's as easy as downloading the app and plugging in the swiper. You can swipe cards, get authorizations, capture signatures, and email receipts all from a phone you already own. Add in the benefits of competitive pricing for merchants and 24-7 live customer support, and you have an offer you cannot refuse!

FAST & EASY

Process transactions on something you already have...iPhone, iPad, Android phone or tablet. Download the app and begin processing immediately after receiving your activation email.

NO FLAT RATE RESTRICTIONS

Fees for processing credit cards are at an all-time low. If you're paying a flat fee for credit card processing, you're not benefiting from these new low rates!

POINT-TO-POINT ENCRYPTION

Swipers compatible with the AppStar Mobile Terminal have the latest encryption technology, compliant with Visa's "Best Practices" recommendations for merchants.

REVENUE SHARING

Want to talk to someone about your account? With the AppStar Mobile Terminal, you can talk to a live customer support specialist at any time, day or night.

PERIPHERALS	DEVICES	FEATURES
 <p>iDynamo Card Reader^x</p>	<ul style="list-style-type: none"> • iPhone 3GS • iPhone 4/4S • iPhone 5/5S • iPhone 6/6+ • iPad • iPod Touch 3rd Gen & Later 	<ul style="list-style-type: none"> • Point-to-point encryption at the source (recommended by Visa's Mobile Acceptance Best Practices) • Connects to iPhone's charging port/dock • Certified by Apple
 <p>UniMagTM II Card Reader^x</p>	<ul style="list-style-type: none"> • iPhone 3GS • iPhone 4/4S • iPhone 5/5S • iPhone 6/6+ • iPad • iPod Touch 3rd Gen & Later • Android Devices (Contact your sales office for a list of compatible devices) 	<ul style="list-style-type: none"> • Protects sensitive data by encrypting it before it enters the mobile device. • Plugs into audio headphone jack – no power supply needed • Low battery consumption of mobile devices • Bi-directional card reading • Reads up to 2 tracks of card data
