

As many consumers prefer using debit cards to make everyday purchases, debit transactions now exceed credit card transactions.

DEBIT CARD TRANSACTION BENEFITS:

- Reduced checkout time
- Less expensive to process than credit cards
- Cash-back option
- No signature required
- PIN access provides additional security
- Bad checks, Credit Card chargebacks, and counterfeit worries are eliminated

Debit is more secure and convenient for both merchants and consumers, less expensive to process than credit cards and faster than cash or checks. Plus, your customers can enjoy the added convenience of cash back.

Our vast processing networks can quickly allow you to give your customers this payment option.

- Get help from our knowledgeable customer service team that is available to help you 24/7
- Prevent and resolve chargeback issues with the help of our dedicated chargeback department
- We offer technical support for software help and updates
